

I chose to link everything to the main home page. The home page will probably have a photo or two and a brief description of the site and its purpose. I will elaborate more on myself and my skills in the “About Me” section. In that section, I will also include a link to my resume. I will also have a link to the portfolio on the main page. I feel that these are the two most important parts of the webpage as they focus on me and what I am capable of. I will include a “Contact” link at the footer.
